Software Engineer and startup founder with experience building and launching production-ready applications. Currently based in India and open to remote opportunities worldwide.

CORE SKILLS

Dart	Flutter	CSS3	App Deployment
JavaScript	React	RESTful APIs	Git
Java	HTML	AWS	GitHub

PROFESSIONAL EXPERIENCE

Founder & Software Engineer — Liwi Learning Technologies PVT LTD 2025 – Present

- Founded and built Liwi, an AI-powered English learning app published on Google Play Store and Apple App Store.
- Developed the Flutter mobile app with a focus on performance, scalability, and clean UI/UX.
- Integrated Razorpay for secure in-app subscriptions and payments.

Co-Founder & Senior Flutter Developer — PetMe 2023 - 2024

- Built and enhanced cross-platform mobile features using Flutter.
- Integrated APIs and worked with AWS-based infrastructure for scalable functionality.

PROJECTS

KMCC Admin Dashboard

- Built a role-based admin dashboard for managing users, data, and operations.
- Developed responsive UI and integrated APIs for real-time data handling.

Sokoon — Arabic Sign Language App (Qatar)

- Contributed to code structuring and architecture for an Arabic sign language learning application.
- Improved maintainability and scalability by organizing Flutter project structure and best practices.

AI Appointment Booking Agent

- Developed an AI-powered conversational agent to automate appointment scheduling.
- Integrated natural language processing with backend APIs for real-time booking workflows.

FocusPilot — AI Productivity App

- Built an AI-driven task and focus management application.
- Implemented intelligent task prioritization and clean, user-friendly UI.

Liwi — AI English Learning App

- AI-powered English learning application with speech-based practice and subscriptions.
- Built using Flutter with REST API integration and Razorpay payments.

Smart Compatibility — International Trading Website (Saudi Arabia)

- Developed a dynamic, responsive website for a Saudi Arabia-based trading company.
- Built an admin dashboard for managing website content, products, and business information.
